**Hamilton Excursionists Held up by the Buffalo Customs Officials.**

**Senate Adjourns as Mark of Respect to the Late Mrs. Scott.**

**Two Grand Trunk Officers are Chary in Answering a Summons.**

From Our Own Correspondent.  
**O**TTAWA, May 12.—An extraordinary case of detention of two sons of Grand Trunk, an excursion from Hamilton to Buffalo was reported to parliament today. The United States officials taxed each \$2. Mr. Barker urged the government to protest against such indignities, and in answer to the original summons, said he had no personal knowledge of the matter. A summons accordingly was sent to Mr. McGowan, which elicited the reply that he had an important engagement in Chicago, and would not be back before Friday. He suggested that Mr. Wainwright be examined. The committee instructed the secretary to notify Messrs. Hays and McGowan that either one or the other must put an appearance before the committee Tuesday.

The E. & N. bill passed the Senate today.

The special committee on telephones this morning made a peremptory order for Messrs. Hays and McGowan, of the Grand Trunk, to appear before the committee next Tuesday to give evidence in reference to the Bell Co. Mr. Hays, in reply to the original summons, said he had no personal knowledge of the matter. A summons accordingly was sent to Mr. McGowan, which elicited the reply that he had an important engagement in Chicago, and would not be back before Friday. He suggested that Mr. Wainwright be examined. The committee instructed the secretary to notify Messrs. Hays and McGowan that either one or the other must put an appearance before the committee Tuesday.

C. N. Bell, secretary of the transportation commission, is now in the city on his way West. He was in Montreal seeing Mr. Bedford, chairman of the commission, and made arrangements for further meetings. The commission will meet at Fort William and Port Arthur about the end of the month, and will afterwards move to Winnipeg. Later on, it will be held on the Pacific Coast.

### INDIAN TOM TO HANG.

Vancouver, May 12.—Tom Klenamendino, the Indian tried for murder at the spring assizes here was found guilty by the jury yesterday afternoon and today was sentenced to be hanged on July 25, next.

Tom, too, has confessed and admits that his sentence is a just one. He says: "I did not kill that woman. Yumukwa cut her throat with an axe. The story told at Alert Bay was true all through."

All this was spoken in Chinook to Constable Woolcott. The statement made at Alert Bay, which was read at the trial here, was to the effect that Sally, Tom's paragon, suggested the killing, and that Yumukwa was taken in on the scheme. Tom stated that though he held the murdered woman's wrists, that Yumukwa actually cut her throat. The details of the story have already appeared in print.

### PUGET SOUND CUSTOMS.

Port Townsend, May 12.—(Special.)—The report of the customs for April, just issued, presents the largest totals ever shown in the Puget Sound customs district, and the fiscal year now rapidly closing will show totals greater by several millions than ever before in the history of the district. More important still, the enormous gains have been made principally in the matter of exports, a high testimonial to the flourishing industrial conditions prevailing. The total exports aggregated \$4,702,616, as against \$1,854,245 in April last year. The principal item of export was cotton cloth, worth \$1,321,626, as against the same commodity worth \$1,207 in April, 1904. The imports, with a total of \$327,575, show a slight falling off, due, in a great measure, to the war in the Orient, yet exceeded by over \$250,000 those of the corresponding month of the previous year. China was our principal customer, exports there totalling slightly over two millions, Japan being second with \$1,629,188 of purchases for her credit.

The schooner Pilot, one of the best known fishing packets in the north coast service, while off Flattery making a prodigious catch, was caught in a sudden squall, which completely stripped her of her sails. The vessel was forced to return here in tow to renew her sails.

### CROKER'S FAMILY.

New York, May 12.—News of the sudden death of Herbert Croker, son of Richard Croker, was received here today from Newton, Kansas, by his oldest brother, Richard, Jr., and his mother. The Croker home tonight was plunged in deepest gloom. Herbert Croker left home a few days ago to take a vacation on a friend's ranch in Oklahoma. It is said that he had been in ill health and had gone to recuperate.

### CRITICIZES FREE PASSES.

Railroad President Refers to Roosevelt's Bad Example.

Washington, May 12.—A. B. Stickney, president of the Chicago and Western Railway, in a statement filed today with the Senate committee on interstate commerce, criticized the free pass system.

"As an individual rule of action the law against free passes," he said, "was ignored by the congressmen who passed it and by the President, who approved it, and subsequent congressmen and presidents without exception have ignored its provisions. Traveling, they represent the evidence of their misdeeds before the public in a way which indicates no regard for the law. The governors of the states, many of the judges—in short, all officials—from the highest to the lowest—the higher clergy, college professors, editors, merchants, bankers and lawyers present the evidence of their misdeeds in the same manner. There is but one man whose example would be effective, and unless the American people have misjudged his character, if he realized that he was transgressing the law in accepting the courtesy of transportation Theodore Roosevelt would have shown that he was not above the ability to set the example, which should awaken officialdom and all good citizens to a sense of the individual duty to obey this law."

## Mysterious Death Of Young Croker

**Son the of ex-Tammany Leader Dies on Train in State of Kansas.**

**Placed in the Car While Under the Influence of Drug by Negro**

Kansas City, Mo., May 12.—Herbert V. Croker, a son of Richard Croker, was found dead on a southbound Atchison, Topeka & Santa Fe railroad train between Kansas City and Newton today. He had died during the night, evidently from the effects of some drug administered at Kansas City, where he boarded the train last night for Bliss, Oklahoma.

The first news of his death was received in Kansas City today when the local police were requested to hunt for a negro who is said to have placed Croker on the train at Kansas City.

According to a telephone message from Newton, Croker was found dead in the seat just before the train reached Newton today. The body was taken from the train at Newton. His identity did not become known until a message was received from Richard Croker, junior, several hours later, asking the authorities to hold the remains and stating that he would leave immediately for Newton.

The first clue to Croker's identity was a letter found on his person addressed by Zach Muhlall, formerly of Oklahoma. This is now exhibiting a wild west show in New York city, to Joseph Shiller, manager of the "101" ranch at Bliss, Oklahoma. Enquiries by telephone elicited the information that Croker was not known at the Bliss ranch. Evidently he was on the way thither for an outing.

### Mysterious Companion

Following a message of enquiry sent to New York city, the coroner took charge of the body and empanelled a jury. An inquest was begun tonight. According to stories of passengers on the train upon which Croker died, the young New Yorker was placed on the train at Kansas City by a negro shortly after 10 o'clock last night. Croker appeared to be under the influence of some drug. The negro was seen to hand him a railroad ticket before the train started, when he jumped off and disappeared. When the conductor came around to collect Croker's fare the latter was asleep and the conductor did not disturb him. At 5 o'clock this morning, when the conductor made another attempt to collect the fare, he found that the young man was dead.

The coroner at Newton was telegraphed of the fact, and when the train reached that city the body was removed to an undertaker's establishment. It was several hours later before Croker's identity was suspected. As far as can be learned, Croker arrived in Kansas City in the morning and spent the afternoon at the Elm Ridge race track. He is known to have been in the company of several patrons of the race track before he boarded the train for the south.

### AN OLD MINER'S END.

Landslide at Eight-Mile Creek Kills Pioneer.

Barkerville, B. C., May 12.—A sad accident occurred this afternoon at Eight-Mile creek claim, known as the Thistle Gold Mining Company. A very sudden and unexpected landslide came down the bank, covering up an old miner named Dan Hynes. He was dug out with all possible haste, badly crushed, and in spite of medical aid, which was on the spot in a short time, died in a few hours.

### EARL GREY'S INSPECTIONS.

Montreal, May 12.—The Governor-General and General Manager McNeill and W. R. Baker, the latter's assistant, as escorts, spent this morning at the new Angus shops of the Canadian Pacific railway, the largest institution of its kind on this continent. His Excellency was shown the process of manufacturing locomotives and cars from start to finish, and was greatly interested. His Excellency left for West Point, N. Y., tonight to inspect the United States military academy.

Judge Bain, of Winnipeg, died in the General hospital here this morning after an illness lasting several months. The immediate cause of death was pneumonia.

## Nan Patterson Is Released

**Chorus Girl Given Her Liberty on Her Own Recognizance Yesterday.**

**District Attorney Addresses the Court and Reveals Jury-Room Secrets.**

**Morbid Throng of Sightseers' Demonstration on the Streets.**

NEW YORK, May 12.—After more than eleven months in prison and three mis-trials on a charge of murdering "Caesar" Young, Nan Patterson walked from the Tombs today a free woman. As she left the building, which has been her home since a few days after Young was found lying in a cab in lower New York, two thousand persons greeted her with cheers, for the news that District Attorney Jerome would move her dismissal from custody had spread rapidly. But the accused girl had but a few seconds to see and hear the demonstration before she was whisked away in a carriage with her lawyer, Abraham Levy.

The news of the move to discharge Nan Patterson came rather unexpectedly to the public. It was an hour or more before when District Attorney Jerome appeared before Recorder Goff in special sessions, and announced that he desired to move the discharge of the former chorus girl on her own recognizance.

Not the least interesting of the day's events was the reunion in freedom of the former Florodora girl with her sister, Mrs. J. Morgan Smith, and her brother-in-law, Morris Smith, both of whom were discharged by Justice Cowling in the court of general sessions after having been held on charges of conspiracy in connection with the case. Smith was also held for contempt of court in failing to obey a subpoena to appear as a witness before the grand jury. He was fined \$250 on this charge and released. Nan Patterson herself paid the fine out of a \$300 check which had been given her by a friendly newspaper.

**Jerome Asks for Release**  
District Attorney Jerome asked the court to free Nan Patterson in a speech, in the course of which he declared that during two trials of the girl the evidence in the possession of the district attorney's office had been presented to the court and that in both cases there had been a disagreement. He said he did not believe that at this time in this county another trial would result in anything else than a disagreement.

Then he declared that during the last trial he had information that the members of the jury had agreed that J. Morgan Smith had bought the revolver, that Nan Patterson carried it in the cab, and that "Caesar" Young died in the cab. He took occasion to not commit suicide reports as to the cost of the trials. Following this line, he declared that the newspapers had made "gross misrepresentations" in their accounts of the case. He concluded with the motion that Nan Patterson be discharged on her own recognizance. It was then that Miss Patterson was sent for, and as a court officer met her in the cell, he said: "Come on, Nan, it is all right; you are going to be free."

**Recorder Goff's Address**  
When the girl arrived in the court room, Recorder Goff addressed her. "Nan Patterson," he said, slowly, "the district attorney has seen fit to recommend your discharge. I feel bound to say I fully coincide with the decision. There is nothing that has not already been said, but let me entreat you in your future life to remember the terrible ordeal through which you have passed, and to permit every action of your life to be guided by that remembrance. Good-bye," and the recorder bowed his head as he uttered the final words and closed the case.

A moment later the girl was shaking hands with her counsel. Then she walked steadily from the court to find herself in the arms of her father outside the door. The crowds in the corridor cheered and the police let them have their way.

As she reached the street door, the demonstration was taken up by a long outside. Hurrying through the crowd, she took her place in a cab, smiling and nodding.

**Remarkable Demonstration**  
As the cab started down towards the offices of her counsel, mounted police surrounded it and kept back the increasing crowd which was threatening one of the most remarkable demonstrations ever seen at the Tombs.

In Mr. Levy's offices, Miss Patterson briefly expressed her thanks to her counsel, announced to the newspaper men she was going to her father's home, and was driven to the Saint Paul hotel. She there met her sister and they took an auto ride, J. Morgan Smith joining the two later, and the trio dined together. Miss Patterson took a late train for Washington tonight.

### FRANCE AND JAPAN.

**Dr. Motono Has Confidential Interview With Delcasse.**

Paris, May 12.—Dr. Motono, the Japanese minister, called at the foreign office this afternoon, and had an extended interview with Foreign Minister Delcasse on a subject not disclosed, but assumed to be the neutrality question, which is generally considered to have been much of a mystery. It is believed by the departure of the Russian second Pacific squadron from French waters.

### FATAL DRUNKEN BRAWL.

**Man and Wife Both Dead as Result of Debauch.**

Newark, N. J., May 12.—Timothy Carew, 35 years old, a leather worker, was found dead with his throat cut at a furnished rooming house here today. His wife, who died in the East Orange police station, is thought to have murdered him. It was found that Carew was found Monday night, when he was heard quarreling with his wife in the room.

Near Carew's body was a basin of bloody water. Two insurance policies, one in the name of Thomas Kelly, and another in that of Mrs. M. Carew, were found in the pockets of the dead man. At Carew's place of employment it was learned he had not been there since Saturday.

In the room where Carew's body lay were evidences of a struggle, furniture being upset and the bed clothing stained with blood.

## Kaiser Criticizes Russian Officers

**In Speech to Troops Emperor William Scores Muscovite Leaders.**

**Censures Kuropatkin for His Conduct at Battle of Mukden.**

Berlin, May 12.—The Strassburger Post gives this version of Emperor William's recent speech to the officers at the Strassburg review of troops:

"The officers' corps is the soul of the army and must ever be kept in trim, otherwise the army suffers. The present war furnishes examples enough of that. The Japanese officers' corps is extremely efficient and, like the Japanese common soldier, has stood the test fully. The Russian officers' corps, on the other hand, have completely failed, whereas the Russian soldiers have behaved well and fought bravely. My son told me that many officers, that in such extended battles the commander-in-chief must above all things not go to the front. There he only has a view of part of the field nearest him, but completely loses sight and direction of the whole. In the battle of Mukden, Gen. Kuropatkin committed the error of going to the front. The Japanese commander-in-chief, Marshal Oyama, remained far to the rear and commanded from there a very extended struggle. He received telegraphic reports, gave telegraphic orders and sat there as calmly as a chess player, instantly making move after move. Kuropatkin completely failed in this attack of a suitable position."

### GAS HOLDER COLLAPSES.

**Two Men Killed and Many Badly Burned by Explosion.**

Philadelphia, May 12.—Two men were killed, one was fatally injured and two were seriously burned today by the collapse of an immense gas holder at the Point Breeze works of the United Gas Improvement Co., in the southern part of the city. The dead men are: Geo. H. Whalen, a tin roofer, and Jas. Ogilvie, his assistant. Owen Brady, an employee of the Gas Co., was fatally injured.

### THE EVER-READY EXCUSE.

**Russian Authorities Throw Blame for Massacre on Victims.**

St. Petersburg, May 12.—The official account of the disorders at Zhitomir says a general massacre was only prevented by the energetic measures taken by the authorities. It attributes the outbreak largely to the situation created by the Jews and revolutionary agitators, and cites a number of disorderly acts on the part of the Jews, and concludes as follows: "The minister of the interior has received news of cases in which Jews have insulted, and even beaten, women. The Christians are greatly incensed and excited. Besides this the social revolutionists have scattered proclamations telling the Jews that a massacre is contemplated. Everything shows that the cruelties were perpetrated under the influence of the revolutionists, who are embarrassing the authorities in preventing encounters between the Jews and Christians. The governor has been instructed to urge the better class of Jews to persuade their co-religionists by their conduct not to excite hatred against themselves."

## Russian Dash For Vladivostok

### Report That Cruisers From the Baltic Fleet Have Made Port.

### Admiral Togo Is Said to Have a Surprise up His Sleeve.

London, May 12.—The report from St. Petersburg that word has been received there that the Russian cruisers Ketchik and Almaz have reached Vladivostok, having left Admiral Rojdestvensky some days ago and having made a bold dash through the midst of the Japanese, has caused a sensation. If the news is true, it means a great deal to the Russians, as Admiral Skrydlov, commanding at Vladivostok, now knows Rojdestvensky's plans and is in a position to co-operate with him.

One of the leading admirals in the British navy, who is in a position to know the plans of the belligerents in a general way at least, in discussing with the correspondent of the "Pulse" the Press on the outlook, said:

"I feel certain that Admiral Togo has a surprise up his sleeve and that Rojdestvensky will find this out very soon. Togo's apparent effort to dodge the Russians has been for the purpose of detaching them into a spirit of false confidence, and when he strikes he will do so good and hard."

### Submarines in Plenty.

"Do you recall the fact that the Japanese were reported, immediately after the fall of Port Arthur, to have secured a large number of submarines, many of them British and German make? They have not been heard from since, but you can depend upon it that the Japanese are making use of them at Sasebo, and that they soon will be tried against the Russians."

"And their crews will be all experienced. Togo knows what it would mean to the Japanese cause to permit Russia to wrest the supremacy of the sea away from him and he can be depended upon at the right time to secure the maximum result with the minimum of expenditure of risk. He will likely surprise the world soon with a brilliant and unexpected movement that will remove the Russian menace from the Japanese coast."

### Great Fight Is Due.

Similar views are held by the British naval strategists and the belief is growing that sensational news can be expected soon. When the fight will take place no one cares to say, but that it must come, and soon, is the universal opinion.

In the meantime the news from Tokyo is of the most alarming character. The outbreak of popular indignation against France for her violation of neutrality is growing and already equals the bitter feeling that prevailed against Russia prior to the breaking out of the war.

### France's Unusual Attitude.

France's attitude, while on the surface conciliatory is underneath is far from such. The French official class seem determined to resent Japan's protest, claiming that French neutrality is on a standard by itself and should not be compared with that of any other nation.

### AN ATTACK OF CROUP WARDED OFF.

"Our little girl, two and one-half years old, woke up coughing with the croup one evening recently. We happened to have some of Chamberlain's Cough Remedy on hand and gave her two doses of it. She went back to sleep and woke up next morning without a trace of croup. It is certainly a great medicine," says A. Luginbill, editor of Star, Villa Rica, Ga. An attack of croup can always be warded off by giving this remedy as soon as the croupy cough appears. It has been in use for many years and has never been known to fail. It contains no opium or other harmful drug and may be given to the smallest child with perfect confidence. For sale by all druggists.

### CELEBRATION PROGRESS.

Enlarged Subscriptions Necessary—No Funds Available for Trap Shooters.

The executive committee held a meeting at the city hall last evening, when the question of funds was brought up and fully discussed. The total collection to date are \$2280 and the estimated expenditure \$3075, several additions being made to the collecting staff and their final reports will be received by the executive Thursday evening and will be reported to the public.

A communication was received from H. N. Short, of the Victoria Gun Club, asking for an appropriation of \$100 for the purpose of holding a trap shoot during the celebration. It was decided that Mr. Short be informed that as all the appropriations had been made, and as there is a possibility of the committee being behind in the amount collected, it will be impossible for them to give anything to the gun club this year.

A communication was read from the Tourist Association, protesting against the regatta being held in the harbor. This communication was received and filed.

It was also decided that the request of the Chief Cooper be added to the committee be left in the hands of the regatta committee with power to act.

The carnival committee presented the programme as suggested by them and also that it was their intention to have electric lights and lanterns strung along the causeway on the evening on which the carnival will be held.

Chief Watson reported that the arrangements for the firemen's races were progressing and that although he had only received entries from Central, Nanaimo, Ladysmith and Victoria, it was quite likely New Westminster would also send a team, as they have been practicing hard of late.

The printing committee were instructed to have the programmes printed with advertisements, which will be done without cost to the committee.

A meeting of the horse and automobile parade committee will be held at the secretary's office this morning at 10 and another meeting of the executive committee will be held on Thursday evening next at 8:15.

Since last report the collectors have added the following subscriptions to the list: \$10—E. J. Dyer, Durham & Brodie, P. R. Stewart & Co., Mrs. R. C. Davis (Poodlo Dozi), Victoria Truck and Dray Co., J. Piercy & Co., Henderson Bros. and S. Leiser & Co.; \$5—Fed & Geo. W. B. Williams & Co., Geo. Carter Co. THE GERMAN LEGATION—TANGIER. FROM THE MONDE ILLUSTRE.

Tangier, May 13.—Count von Tattenbach-Ashold, head of the German mission which is to proceed to Fez to arrange a special commercial treaty between Germany and Morocco, and his staff left here for Fez Tuesday, accompanied by the officers of the military mission. Most of the members of the diplomatic corps and the principal native authorities gathered at the German Legation to bid the Count farewell, and a large crowd of Moors outside the building hailed him as the "defender of Morocco."

The French cable connecting Cadiz, Spain, with Tangier, provided for by the Franco-Spanish convention, has been completed. The cable belongs to the French government and constitutes

it is considered here, another step toward the consolidation of French interests in Morocco.

## Seven Miners Blown to Atoms

Forty Sticks of Dynamite do Frightful Execution in Butte Mine.

Remains of the Unfortunates Gathered up Fill Many Sacks.

Butte, Mont., May 13.—Seven men were killed and one injured, probably fatally, by an explosion in the Corn mine, one of the Helme properties today.

The cause of the explosion is not known. Nels Wampa was carrying 40 sticks of dynamite up a ladder to join companions on the 1,400-foot level when the accident occurred. It is believed that he accidentally touched his lighted lamp to the explosives. Wampa was blown to bits, fragments of his body being found several hundred feet away.

Two men working nearby were blown to pieces. The remains, when picked up, filled seven sacks. Four others, 100 feet distant, were instantly killed. While Foreman Thomas was groping in the smoke to rescue the men, he found half of the top of Wampa's head hanging to an electric light wire, over 100 feet from the scene of the explosion.

## GRAND FORKS AND THE BOUNDARY

Budget of News From the Busy Mining Centres of the District.

From Our Own Correspondent.

Grand Forks, May 11.—(Special)—Victoria day will be celebrated here by holding races and athletic sports, and a grand ball in the evening, all of which will be held in the form of a benefit to our local volunteer fire department.

The remains of the late Archie Lalavie, who died on Sunday of consumption, were shipped yesterday to Spokane for burial there. The family and some friends of the deceased accompanied the body for the purpose of attending the funeral.

Both the north and west forks of the Kettle river are rising rapidly, and as a result both bridges in the city limits are being guarded to prevent serious log jams.

The merchants of this place have mutually agreed to set apart every Wednesday afternoon as a holiday, all stores being closed. This is being done to give more leisure time to the employees. This new system will come into force next Wednesday afternoon.

George Rumberger, mayor of Phoenix, was visiting here yesterday. He will return to Phoenix today.

H. H. Creitz, contractor has returned from a two weeks' trip through the Similkameen. Since his return he has been engaged to prepare plans for the remodeling of the Victoria hotel, the work on which will be commenced at once.

J. L. Mann has been awarded the contract of sprinkling the streets this summer. The contract was let by the city council.

W. P. Putnam and W. Farmer will leave here on the 15th inst. for the northern portion of the province. They will take up large tracts of land and will engage in cattle ranching.

Fred Russell yesterday closed a deal for the purchase of the Victoria hotel. It is understood that the purchase price was a snug sum. Mr. Russell will have the hotel refitted at once and will resume business as soon as possible.

Dr. Aitken of Nelson has decided to remove to Grand Forks and practice his profession. He will be here immediately and will occupy the old block formerly occupied by Dr. Westwood on First street.

Mr. Chas. Hay, Sr., accompanied by his daughter, Mrs. Eibel, returned yesterday from an extended trip through the Northwest Territories. Mr. Hay has recently purchased farming land in Southern Alberta, where he has two sons engaged in farming.

Mr. J. J. Sears, Sr., leaves today for Montana, where he will visit his son for the greater part of the summer.

W. E. Holbrook and family have moved into the house recently occupied by Mrs. Callher. Mr. Holbrook has engaged in the express business.

Special lines in Athletic Suspenders, Jerseys and Knickerbockers just opened, B. Williams & Co.

## Distress in the Tornado's Tracks

Hundreds of Families Have Been Ruined by the Fearful Disaster.

Fifteen Hundred People are Dependent on Their Neighbors.

Snyder, May 12.—All estimates of the number of killed by Wednesday night's tornado in Snyder and its vicinity make the total at least 125 persons. The tornado traveled 35 miles, cutting a path from a quarter mile to a half mile wide. The farm houses in this path were demolished and the occupants killed or injured. Estimates of the number outside of Snyder range from 25 to 40. More than a hundred laborers brought by the St. Louis and San Francisco Railway Company, together with a big force of volunteers, began moving the burning debris today. Two men, dead, and a man barely alive, were found in a heap of rubbish piled against freight cars. They had been there since Wednesday night at 8:15 o'clock, at which time every clock in the town stopped.

About 400 persons were injured, most of them suffering only slight bruises. Forty-five persons are receiving hospital treatment. On account of lack of accommodations, the severely wounded are being taken to larger towns. The relief committee is thoroughly organized and working. The hospital arranged and working. The hospital arranged and working. The hospital arranged and working.

## Appeal for Assistance

The following appeal for aid has been issued by the local relief committee: "To the People of the United States—This place was almost totally obliterated by a cyclone on the evening of May 10. The people here are dividing their all, but have not enough to relieve the pressing necessity. Neighboring towns are generously supplying us with hospital supplies and food. Fully 300 families have been ruined by the storm; 1,500 people are more or less dependent on the good-will of the generously inclined to tide over the present distress. Money is urgently needed. Property loss, including crops, stock, homes and other property, will reach over a half million dollars, with a portion of the stricken people have helped the less fortunate to the extent of \$500 in cash besides dividing food, provisions and clothing with those who lost their all. In view of these circumstances we ask assistance from the American people."

## MINE SINKS TRANSPORT.

Japanese Ship Strikes Floating Mine and Sinks.

Choofoo, May 13.—(48 p. m.)—A merchant vessel which has just arrived, confirmation to the report that the Japanese transport Shevutsu, with 1800 tons of provisions, bound for Newchwang, struck a mine on May 4 near the Miao island. The bottom part of the transport was blown away. The Shevutsu signaled the merchantman that she was in distress, but refused aid when she ascertained that the merchantman was a Chinese ship.

## MEDICAL INSPECTION OF SCHOOLS.

The question of a regular medical and sanitary inspection of the schools by the medical health officer of the city, or some other medical officer, has been raised and discussed in the School Board and at the Council board. The former is in favor of such an official being appointed; the latter is not, even at the low salary suggested. One objection in the minds of the aldermen was, in all probability, the creation of another salaried officer. What was proposed would, in a measure, be in the interests of the schools of the city, and while it may not be necessary to make a new appointment for the purpose, it would be well to consider the enlargement of the duties of the medical health officer, with increased salary, to include the inspection of the schools monthly or at any other time deemed to be necessary. This, it seems to us, should be largely confined to school conditions and premises. A minute inspection of each pupil, even monthly, would involve more labor than any medical man could be expected to perform for \$50 a month. The things which require attention are ventilation, light, cleanliness, drains, temperature of the school rooms and similar matters. Regarding these a medical health officer could frame a set of rules and see that they are enforced. While his attention would necessarily be called to individual cases, where pupils were ill or suffering from causes related to school environment, if the general conditions are kept healthful nothing serious is likely to happen. As one of the aldermen remarked, an inspection of pupils would have to be daily in order to be effective, and that is out of the question. If the medical health officer were to meet the teachers occasionally and discuss and explain proper hygienic conditions, and exemplify his precepts upon his monthly visits by seeing that they were being observed, about all would be done that is practicable or really necessary.

## INDIAN NAMES.

There are many delightfully musical and resonant names in the various Indian languages and dialects of America, and many of them have been adopted, as we know, to designate places throughout the length and breadth of the continent. They are names that we would not care to part with. Take the name of our own country, "Canada," or its capital city, "Ottawa," or one of its Provinces, "Manitoba," or of a large western city, "Winnipeg," or of the ancient French capital, "Quebec"—each is unique and priceless. The resources of the Indian languages in this respect are well illustrated in the immortal poem of Hiawatha by Longfellow, which might aptly be described as a rhythmic romance—matchless in its verbal effects. The advantage of an Indian name is that it usually means something. That is to say, it is intended to describe some characteristic or feature of the place to which it is attached. English names are usually given empirically without relation to any physical feature or historical or other incident associated with localities. They are most often, as in British Columbia, bestowed in honor of some one who happened to be a friend of the namer. We have in our mind a map of a portion of the northern interior, prepared and published by Rev. Father Morice. It is fairly bristling with names of church dignitaries and officials of one kind and another. It would have been much better, in the case of places not previously named, to have continued the Indian designation. If we consider many of the names that have become incorporated in our Provincial nomenclature, such as Nicola, Kamloops, Similkameen, Okanagan, Cowichan, Chemainus, Bella Coola, Shuswap, Tulameen, Cassiar, Cheam, Chilcooten, Coquitlam, Esquimalt, Skeena, Illecillewaet, Kelowna, Kootenai, Kereomes, Kootenay, Lillooet, Lytton, Metchoin, Naas, Nicome, Osoyoos, Sohemon, Stikkeen, Sumas, and hundreds of others, each of which has a special significance as applied to the place originally, it will be agreed that it would be quite impossible to find substitutes for them in the English language. Dr. Hay, in his address before the Natural History Society, dwelt upon that and advocated, wherever possible, giving a name that was not only euphonious but expressive instead of one that had no significance and no beauty. There is a possibility, however, of overdoing even Indian naming. We find in New Brunswick a revolt in the press against what, it is alleged, has become a fad. The Micmacs and other tribes of the Maritime Provinces had vocabularies singular for their jaw-breaking tendencies, and in consequence of the desire to preserve the native names of places the map of New Brunswick, in particular, is appalling.

The Halifax Chronicle, commenting upon the fact, says that: "Even the worm must turn—in pain if not in self-defence. And many New Brunswick names are far beyond the limits of peaceful endurance, witness, from the railway and post office tables, the following: Nauwigewauk, Apohaqui, Plumweseep, Ruslagornis, Washadenok, Nelsiguit, Pokemouche, Taboussutac, Buctouche, Kouchibouguac. And what are these among so many? Any one of them may mean 'the place where Big-Buck-stubbed-his-toe,' or 'where Lone-Squaw-found-a-dead-dog,' just as well as anything else. We have far too much of similar tongue-tangling, jaw-jabbing, senseless verbal rubbish in Nova Scotia, although we are happily much better off in that respect than New Brunswick."

## CONDITIONS IN THE YUKON.

The Toronto News of May 3 has an article on the condition of affairs in the Yukon, in which it says that it is almost without parallel in the annals of a self-governing country, and is approached by nothing which existed in the palmiest days of the Family Compact, held up to us for many years as the horrible example. The News says the Territory has been turned into an aristocracy for French-Canadian office-seekers, and that the school system which it is proposed to fasten for all time on the new provinces in the Northwest has been arbitrarily established. Sir Wilfrid Laurier has proposed that the Yukon should be attached to British Columbia. He thinks British Columbia is as crazy about territory as some of the other provinces. We do not know whether he will endeavor to make stipulations concerning the continuance of the school system there as a condition precedent to our entering into possession. Probably he will have learned something regarding the state of the public pulse here before that time. This is aside, however, from the main fact to which the News wishes to call attention. This it does in a list of appointees, which it thinks significant, as follows:

"Senior Judge—Calixte Aime Dugas, salary \$10,000, who appointed the returning officers whose conduct in the last Yukon election made a new scandal in Canadian politics.  
"Gold Commissioner—While Mr. E. C. Senkler is nominally Gold Commissioner, he confines himself to the trial of contests, and Mr. Joseph Noel, salary \$5,000 and expenses, Deputy Commissioner, is practically in full charge, and he conducts the active business of the Commissioner's office.  
"Registrar of Land Titles—J. E. Girouard, salary \$3,000.00, who was offensively active in the recent election in keeping the voters' lists out of the hands of the independent Liberals and the Conservatives, and who was finally run to earth and his connection with the lists established.  
"Timber and Lands Agent—F. X. Martin.  
"Public Works Agent—S. A. D. Bertrand, salary \$2,000.00, and \$1,200 expenses, formerly of Kamloops.  
"Engineering Department—A. J. Beaudette, salary \$3,500 and \$407 expenses, is at the head.  
"Crown Prosecutor, License Inspector, Government Agent and Examiner for the Law School—Auguste Noel. This man knows no English law, is said to be a confidant of Sir Wilfrid Laurier, lives with the priests, and, with the assistance of Judge Dugas and Registrar Girouard, maintains French-Canadian supremacy. The office of Crown Prosecutor was formerly held by Mr. Pattullo, but as many of the prisoners were French, it was divided, and half given to Noel. In Dawson he is known as "Not Guilty" Noel, as he seldom secures a conviction.  
"Court Reporter—J. A. Valiquette, salary \$3,800. He is really private secretary to Judge Dugas, who in this way furnishes himself with assistants and servants at the expense of the Government.  
"Judge Dugas conducts an immense political correspondence with Ottawa, and also carries on a big business correspondence with Montreal people.  
"Mining Recorder—Aime Dugas, salary \$2,975.00, a son of Judge Dugas. Although he had never read a law book, the Judge and Girouard tried to pass an ordinance making him a lawyer. This was only stopped by the interference of some private parties, who made urgent representations to Ottawa.  
"Survey Department—The head of the Department is P. F. X. Genest. Salary \$3,300, and it is a notorious fact that the great majority of positions in the Government offices are filled by French-Canadians."

## ORIENTALS AS A LOCAL FACTOR.

We call attention to an article from the Toronto Globe, which appears in another column, in which the introduction of Chinese and Japanese labor is discussed. Attention is directed, in particular, to the concluding remarks of our contemporary dealing with the Japanese. The position is taken that, owing to the importance of Imperial interests, there "is no escape from the disturbing influence of their entrance into industrial competition with Canadian citizens." The conclusion arrived at, from a local point of view, is not very satisfactory, although there is sufficient force in it to warrant serious consideration. The question is daily becoming a more vital one, and cannot be wholly disregarded even in obedience to the superior interests which are involved.

As we pointed out the other day, there is very little difference in principle or effect, as between Chinese and Japanese as factors in the labor market. The only difference which exists is in the status of the nations to which they respectively belong. One is in a position to resist discrimination, while the other is not. The time may come, and the indications point in that direction, when the Chinese, through the stimulation and tutelage of the Japanese, will be in a position to assert rights to equal consideration for their citizens along with those of other nations. From the point of view of the laborer, with whom they come into competition, the Japanese are, if anything, a more dangerous and disturbing factor than the Chinese.

The Globe suggests, in all probability as a remedy, that "it may be that the Japanese now crowding out white labor in the West will become good citizens, and that they may adopt Canadian ideals of industrial and domestic life." In many respects that is already the case. Sociologically considered, as a remedy, that is even less to be desired than their presence as aliens. If there be a solution, it lies in a recognition of that fact. Experience and common sense alike point to the conclusion that an admixture of races is undesirable. This does not argue the superiority of one race over the other. For physical reasons they should be kept apart, each in their own sphere. Physical alliance, because that is what indiscriminate citizenship ultimately means, will beget a product inferior to progenitors on either side. The two races are wholly different in ideals, habits of thought, customs and in genius. They cannot compete upon equal terms. It is a question of condition. A perfectly honest recognition of the inherent differences which exist, should enable two nations

to frame a treaty, without loss of dignity to either one, providing that the two should remain apart and within their own territory or sphere of influence.

Some governments, like some men, are lucky. The late Geo. Gooderham, of Toronto, left an estate said to be valued at \$20,000,000. The inheritance tax to the Ontario treasury will be about \$1,000,000.

Andrew Carnegie says "the future question will be how a man serves his fellow men." With characteristic Scotch foresight Mr. Carnegie took care to serve himself well to start with, which reminds us of the Golden Rule of David Harum, to do unto others as you would have others do unto you, but to do the other fellow "rust."

It has transpired that "Frank Oliver" is not the family name of the new Minister of the Interior. It is really Frank Oliver Bowsfield. He is a Peel (Ontario) boy, born in the township of Chinguacousy, who came West as a printer in the early days of Manitoba. On account of some family trouble, it is thought, he dropped "Bowsfield" from his name. This disposes of any claims the member for Delta may have for relationship with the new Napoleon of the Northwest. John and Frank are not any more in the same class.

We have received a communication reflecting on the judgment of the Full court in the case of "John Morgan versus the British Yukon Navigation Company." The criticism is based on statements made in the press, which, if true, our correspondent thinks are serious enough for ventilation. We can see no good reason for publishing the letter in question. The judgment itself sets forth the grounds upon which it was based, and we are satisfied the judges came to a decision strictly in accordance with the facts before them and the law in relation to them.

Chas. Hyman, who has been acting Minister of Public Works, and who is likely to succeed the late Hon. Mr. Sutherland, is in an awkward dilemma. He has two constituencies open to him, his own in London, and North Oxford, which was represented by his predecessor in office. His majority in London at the last general election was very small, and the present feeling on the educational clauses of the autonomy bill will not improve his chances. If he goes to Oxford, which is almost impregnable as a Liberal stronghold, it will be out of fear of results in London, and will demonstrate the weakness of the Government's hold in the country notwithstanding the strength of its majority in Parliament.

Hon. Mr. Fitzpatrick, in his speech on the autonomy bill, went deeply into the constitutional phases of the question, and argued, of course, that the present clauses were for the purpose of removing doubt, and to make perfectly clear just what the rights of the educational minority were. It was not a question of separate schools. It was he said, a question of Parliament being "bound to give effect to the pledges contained in the law of 1875 establishing separate schools in the West. Even the late Dalton McCarthy had held that if separate schools were established in the Territories and existed at the time the Territories were given provincial constitutions then they would exist for all time." If Mr. Fitzpatrick is so sure of the law, and he may be absolutely right, what necessity was there to insert provisions in the autonomy bill to conserve what is already conserved. The only possible purpose it could serve was to relight sectarian fires that had all but died out in Canada since they blazed in 1890.

## LETTERS TO THE EDITOR.

[The Editor does not hold himself responsible for views expressed by correspondents.]

## EXCEEDING THE LIMIT.

Sir—"Little knowledge is a dangerous thing" applies very forcibly to the proposition put forward at the recent meeting of the board of school trustees, viz.: That the teachers should attend lectures on the subject of "The Oriental," in order that they may be able to make initial inspections of the children.  
As father of a small family, I am totally opposed to any practice of the kind, if it is considered necessary that the public school children should be examined regarding their health, it must be done by a medical man of recognized ability; and I am sure no parent of a child would be guided by the opinions of public school teachers in such matters.  
I fear the present education system is continually overstepping the bounds of its usefulness in its curriculum and domestic arrangements.

## AN ADVOCATE OF PUBLIC SCHOOLS.

## THE WHITE MAN'S BURDEN.

The (Toronto) Globe.  
The introducing of Chinese and Japanese labor into British Columbia is causing serious trouble in many localities. Where the Asiatics come into competition with white men the lowering of the general standard of living is inevitable. The foreign workers have become injured for generations to conditions which would be tolerable to English-speaking races, so when they enter upon the better conditions provided in the West they are prepared to accept rates of wages which materially lower the general standard of comfort. Strong, and even violent, protests are now heard from the Kootenay country, where white labor has been largely displaced by the Orientals. Where feeling has run high and violence has been threatened the Asiatics have been working under police protection. The women of Sumo have protested against the introduction of a new class of labor, which would be a source of starvation or another trek into the wilderness, where they may once more be forced to move on by the Chinese and Japanese. A public meeting has passed a resolution of protest settling forth the abundance of available white labor and the valuable service of the white workmen in building up the country, and protesting against the introduction of the Asiatics, who displace native Canadians and British subjects. The cause of the Orientals is naturally supported by the employers of labor, who find, temporarily at least, an increased profit in the employment of a lower grade of men.  
The conflict is between races presenting differences that seem irreconcilable. The white man, in his material nature, is a family by his work and providing them with a reasonable standard of comfort. The Asiatics show little inclination toward any such view of life. They are content with a life of ease and sustenance by white labor and by Chinese labor is so striking as to kill all hope of reconciling the divergent racial instincts. A few years ago Chinese labor was concentrated in Chinatown, contained only four Chinese women, and it was known that these were possessed by two wealthy Chinamen, each of whom had a wife. The Japanese are regarded as more likely to conform to Western ideas and to demand Western standards of living. The admission of the Japanese, however, is a necessity of Imperial interests. This

should be fully weighed by all who think Canada unwilling to make sacrifices in favor of Britain's treaty with Japan is more than Australia has been willing to make. Canada has given a serious local infection, and has submitted to an influx of disturbing elements in response to Imperial necessities. The introduction of Asiatic labor in the Transvaal has given an accident of the extension of British authority, but the disallowance of British Columbia's Japanese exclusion laws has been a deliberate move in accordance with Imperial policy. It may be that the Japanese will become good citizens. They may adopt Canadian ideals of industrial and domestic life. But whatever their future in the West may be, there is no escape from the disturbing influence of their entrance into industrial competition with Canadian citizens.

## AN ECHO FROM MOUNTAIN.

## A JUST JUDGE.

Sugar City (Colo) Gazette.  
Down in Pierce city, Missouri, one night recently an officer caught a young man kissing his sweetheart, and arrested him. When the judge learned the facts in the case next morning, he discharged the prisoner, and said:  
"Go back and start in where you left off. If there was another one coming to you when the officer caught him, go and get it. And take with you the humble apologies of the state of Missouri."

## HOW THEY DO IT.

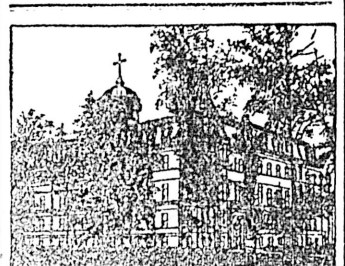

Mr. Takahira, the Japanese minister at Washington, says the New Orleans States, has a new story which he tells with great gusto. He says he heard two women discussing his nation.  
"The Japanese," said one of them, "ought to be excluded from the country. Their young men come here to school, and no sooner do they arrive than they begin a systematic course of cheating."  
"How is that?" asked the other.  
"They only pay tuition for one year," said the complainant, "and they learn enough for two or three."

## PEOPLE ARE QUEER.

Chicago Record-Herald.  
Call a girl a chick and she smiles; call a woman a hen and she howls. Call a young woman a witch and she is pleased; call an old woman a witch and she is indignant. Call a girl a kitten and she rather likes it; call a woman a cat and she hates you. Women are queer.  
If you call a man a gay dog it will flatter him; call him a pup, a hound or a cur, and he will try to alter the map of your face. He doesn't mind being called a bull or a bear, yet he will object to being mentioned as a calf or a cub. Men are queer, too.

## SOME SUPERLATIVES.

Buffalo Commercial.  
"The highest street in the world," said a globe-trotter, "is Main street in Denver. The richest is Fifth avenue in New York. The widest is Market street in Philadelphia. The shortest is the Rue Bleue in Paris. The longest is only twenty feet long. The dirtiest street is Tehangst, in Nanking. The cleanest is the Rue de la Ville in Seattle. The most aristocratic is Grosvenor Place, London. The most beautiful is the Avenue des Champs Elysees, Paris. The narrowest street is Via Sol, Havana, which has a width of forty-two inches. The ugliest street is considered by many street artists and architects to be Broadway, with its skyscrapers."

## The New Scale Williams Piano at St. Mary's Academy, Winnipeg.

Most of the world's greatest masterpieces, both in Art and Music, have been produced under religious influence. The Roman Catholic Church has for centuries fostered all that is best in music, and it is well known that their Religious Colleges and Academies contain some of the best artists and cultured music enthusiasts.

That the New Scale Williams Piano has been selected as the best for their purpose by the St. Mary's Academy, Winnipeg, is a distinct triumph for this leading Canadian instrument. The selection was made after a thorough investigation into the merits of all available Canadian pianos. The following letter explains itself.

St. Mary's Academy, Crescentwood, Winnipeg, Man., Feb. 2, 1905.  
Dear Sir,—Since September, we are using the New Scale Williams Pianos, and are happy to testify to their magnificent tone qualities, sweetness, richness and evenness. We sincerely congratulate you on the wonderful improvements made in the construction of these pianos.

Sisters of Jesus and Mary, St. Mary's Academy.  
St. Mary's Academy is but one of an extensive list of representative educational institutions that have adopted the New Scale Williams Piano. As a matter of fact, music lovers everywhere unite in declaring it Canada's foremost piano. The artistic elegance of its appearance is only excelled by its perfect construction, durability and rich singing tone.

The Williams Piano Co., of Oshawa, publish three booklets on the history and construction of pianos. They should be read by all contemplating the purchase of a piano. They are sent free on request, or can be obtained from the local warehouses.

## LOCAL NEWS.

Damage Nil—The fire department were called to Rock lay yesterday, an alarm being turned in for an inconsequential chimney fire.

Picnic in Prospect—A meeting of the Methodist Sunday school union picnic committee will be held in the Y. M. C. A. rooms at 8 o'clock this evening.

Relieved From Duty—Sheriff Richards makes the pleasing announcement that all grand and petit jurors summoned to attend the assize court on Tuesday, May 16, are relieved from attendance, the assize having been cancelled.

Cadets To Parade—A special request is issued to the High school cadets to attend parade at the drill hall this morning, the fall-in being at 10 o'clock sharp. The commanding officer has an important announcement to make during the morning's exercises.

An Assault Case—Alexander Pitts was charged with assaulting James Donegan in the provincial police court this morning. The case was remanded that witnesses may come from Esquimalt, where the offence is said to have been committed.

No Inquest—As predecated yesterday, no inquest was regarded as necessary on the body of the Chinese drowned with a companion on Shoal bay on Thursday evening. The third member of the unfortunate party has almost wholly recovered.

Gravel From "The Willows"—Ald. Hanna has given notice that at Monday evening's meeting of the city council he will move that the city at once enter into a contract with the B. C. Electric Railway Co. to haul a quantity of gravel from the new, Old Men's Home site at "The Willows," on the terms agreed upon at a former meeting of the council.

Home Strawberries—Among the first of the local crop of strawberries are those from the farm of John Cooper of Cadboro bay, which are not only especially early, but of fine size, color and flavor. The New England hotel was prompt to take up the entire first receipts.

Pulp Co.'s Prospects—A London despatch dated May 5 says: "It is announced that, in anticipation of securing under crown leases the right to take timber for the production of wood pulp and paper over 103,000 acres of forest land at the mouth of the Powell river, on the seaboard of British Columbia, the Western Canada Pulp and Paper Co. will tomorrow issue a prospectus inviting subscriptions at par for 300,000 six per cent. cumulative preference shares of £1 each."

Spring Ridge's Grievances—In conversation yesterday with a resident of Spring Ridge, a Colonsay reporter learned that a movement is on foot at the eastern suburb to have the various property holders whose interests are affected, present themselves at the court of revision, which sits on June 14, and ask that a general and sweeping reduction in assessments be made as a quid pro quo for the injury done property values owing to the wholesale excavations at the sand-pits. They feel that the court will find it difficult to refuse their request, as they will be prepared to establish beyond doubt that the lowering of property values has been real, and serious to some extent, which warrants some remedial action on the part of the city.

### THE OAR.

The first J. B. A. regatta to be held  
this season will take place this afternoon  
in the harbor. The crews have all been  
training faithfully and some close finish-  
es are expected. The course will be from  
Coffin Island to the clubhouse and the  
first race will start at 3 p.m. On these  
races will depend the honor of upholding  
the colors of the club this season. A  
four oared race, D. O'Sullivan has been  
decided upon as starter, and W. W. Wilson  
and W. C. Anderson as judges. The fol-  
lowing are the crews:  
300—1st beat—King (stroke), Laine,  
Clarke, Belyea (bow), Pritchard (stroke),  
McQuade, Robinson, Morley (bow).  
320—2nd beat—L. Smith (stroke), V.

first and second heats.

### CRICKET.

United Bankers vs. Victoria C. C.  
The Victoria Cricket Club will meet a  
team from the United Bankers this afternoon  
at the Jubilee Hospital grounds. The  
game will be called sharp at 2 p.m., and  
the players are all requested to be on  
hand in time. The following team will  
represent the Bankers: G. A. Taylor, N. B.  
Gresley, E. W. C. Hilton, A. R. Bethune,  
W. H. G. Phillips, H. Gillespie, K. Gilles-  
pie, P. A. Macrae, W. G. Allot, W. R.  
Seattle and W. A. Irving.

### YACHTING.

Fleet for Vancouver.  
A meeting of the Victoria Yacht Club  
was held on Thursday evening, for the  
purpose of arranging what yachts should  
represent Victoria in the international  
races to be held in Vancouver on July 1.  
It was decided that the following boats  
attend: Aradne, Gweno, Dorothy,  
Whitcomb, Marietta and Aloha.  
The committee will arrange to have the  
boats towed over to Vancouver, and after  
taking part in the regatta, they will cruise  
back home; it is expected the fleet will be  
away about a week, and a very enjoyable  
outing is looked forward to.

Vancouver's Affliction.  
Vancouver, May 12—No game; too much  
rain.  
Hillside vs. Nanaimo.  
Today the Hillside team will journey to  
Nanaimo, where they will meet the Nanai-  
mo team for the first time this season. The  
Hillside have been practicing hard and  
should give a good account of themselves.  
The following team will represent the  
local boys: C. Brewster, P. Herd, 1st B.  
Hughes; 2nd base, Klusman; 3rd B. North-  
cott; s.s., G. McInroy; 1. f., Anderson; c.

## Diphtheria Starts With Sore Throat

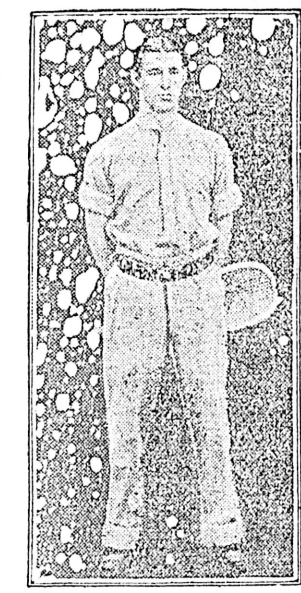

CURE THE TROUBLE NOW—CA-  
TARRHOZONE IS THE ONLY  
SURE, CERTAIN REMEDY.

It may be only a slight cold—just a  
tickling in the throat. But little colds  
soon grow large and dangerous. Often  
they become chronic, develop catarrh  
and end in consumption.  
Catarrh is the remedy. It draws  
inflammation and soreness out of the  
throat and relieves the cough. It cuts  
out the phlegm, makes breathing easy  
and kills any germs lodged in the mu-  
cous membrane.  
Mrs. Chenoweth, of Glendive, writes:  
"I had a bad cough for several months  
last fall that settled on my lungs. Not-  
thing I used could shake it off, but, read-  
ing in the Presbyterian Witness of the  
wonderful cures of Catarrh, I de-  
cided to try it. The irritability and  
soreness less my throat in a few days  
and in less than one week it entirely  
cured my cough.  
Catarrh always cures because it  
goes right to the sore spot, which it  
heals and makes well quickly. It has  
no equal for the speedy cure of coughs,  
colds, catarrh, bronchitis and lung  
trouble. A trial convinces.  
Two months' treatment costs one dol-  
lar; trial size 50c. Sold by druggists or  
from N. C. Polson & Co., Kingston,  
Ont. and Montreal.

It was rumored around town yesterday  
that Jimmy Holmes had been released by  
Manager Howlett at Vancouver. In con-  
nection with this President Russell was  
seen last evening and said that Jimmy  
had not and would not be released, as he  
was considered one of the strongest pitch-  
ers in the league. It was also reported  
that Philbrick has asked Manager Howlett  
for his release, but this could not be ver-  
ified. Mr. Russell, who was asked re-  
garding this, had no information to that effect,  
but did not think it right.

WILLIAM A. LARNED

New York, May 13.—Three members  
of the lawn tennis team that will rep-  
resent the United States in the tourna-  
ment in England next July for the  
Davis International Cup have been  
selected. They are William A. Clothier,  
of the Merion Cricket Club, of Philadel-  
phia; Holcombe Ward, the national  
champion, and William A. Larned, a  
former champion. These selections  
were made at a meeting of the commit-  
tee of the National Lawn Tennis Asso-

ciation, held last week in the city.  
The decision of the committee has  
been more or less complicated by the  
rules governing the international  
matches and as a result Beals C. Wright  
one of the foremost players in this  
country, who, with Ward, was relied  
upon to compose the American doubles  
team, may not represent this country.

take place at Oak Bay this morning at ten.  
North Ward and Centrals opening the  
season. W. N. Wasby has been ap-  
pointed umpire and a good snappy game is  
anticipated. The teams are as follows:  
North Ward—C. Seabrook; p. Dakore;  
1st b., Cox (capt.); 2nd b. Morrison; 3rd  
b. Hall; s.s., McArthur; 1. f., J. Meldrum;  
c. f., P. Auld; r. f., J. Bishop.  
Centrals—C. Johnston; p. Morley; 1st  
b., Matthews; 2nd b., Johns; 3rd b., Roth-  
ford; s.s., Clarke; 1. f., Fredette; c. f.,  
Mathews; r. f., Spencer; reserves, Sul-

### THE TURF.

The Derby.  
A considerable chance has taken place  
in the Derby betting in England, and the  
victory of Vedas in the Two Thousand  
Guineas stakes has brought him to the  
position of equal favor with Jardy, the  
French candidate. Vedas is receiving very  
strong support from the public, who in-  
variably refuse to overlook the chances of  
a horse which proves successful in a big  
public trial, as the Two Thousand Guineas  
undoubtedly was. Still it must not be  
forgotten that on last year's form Vedas  
can hardly expect to defeat either Jardy  
or Cicero, and we still think that if these  
two cracks are to suffer defeat, it will be  
inflicted by Plum Cent, who, it is whis-  
pered, is considered by his stable to be at  
least fourteen pounds better than St. Ge-  
wald, who won the Newmarket stakes in  
very smart fashion. The following are the  
odds posted in the local book, conducted  
by Messrs. McInroy and Stevenson:  
7 to 2—Vedas (t and w).  
7 to 2—Jardy (o).  
4 to 1—Cicero (t and w).  
6 to 1—Ved. (o).  
12 to 1—Rouge (t and w).  
12 to 1—Plum Cent (t and o).  
16 to 1—Langley (o).  
20 to 1—Serenity (o).  
32 to 1—St. G. (o).  
50 to 1—Mowgli (o).  
50 to 1—Others.

## BRITISH SPORTING NEWS

### ATHLETICS.

Shrubbs Wins.  
Another success can be chronicled to  
Alfred Shrubbs. He laid himself out  
for the mile scratch race at the inter-  
national meeting, held on the Sydney  
cricket ground on Saturday. Thoug-  
ht the turf was on the heavy side, he  
reached home in 4 min. 26 3/5 sec.,—  
very good going. His "runner up" was  
only twenty yards away, so it is evident  
our kinsman "down under" is a bit  
useful. After such a mile it was not  
surprising that our little champion re-  
tired in the five miles handicap, to win  
which he would have to beat 25 min.  
1 3/5 sec.  
Duffey's Conqueror.  
British athletes are naturally inter-  
ested in the man who lowered the colors  
of A. F. Duffey in the 100 yards level  
race at Sydney. This was N. C.  
Barker, who finished a few inches in  
front of the little American, with the  
match showing 10 1/5 sec. Barker has  
proved his worth on more than one

occasion and can lay claim to be con-  
sidered an all-round sprinter of high  
merit. Fourteen months ago, at the  
Australasian championships held at Mel-  
bourne, he won three events—100 yards in  
10 2/5 sec., 220 yards in 23 3/10 sec., and  
"quarter" in 50 1/2 sec.—sound proof  
that he is a "flyer" and he would be  
warmly welcomed in England.

Records.  
At the recent meeting of the Amateur  
Athletic Association, the records which  
Shrubbs set up at Glasgow on November  
5 were all marked. The little Horsa-  
ham runner now has the world's amate-  
ur records from 2 to 11 miles, inclu-  
sive, opposite his name, while his times  
for 8, 10 and 11 miles, and also the  
hour, are world's competition records for  
either amateur or professional.

C. E. Larnier's 6 min. 26 sec. and 13  
min. 11 2/5 sec. for walking one and  
two miles at Manchester last July have  
also been passed as records. The former  
is 1 2/5 sec. better than the previous  
best, credited to F. H. Creamer, of New  
Zealand, and only three seconds worse  
than the world's professional record,  
which W. Perkins set up in 1874. Lar-  
ner's two miles time has never been  
equalled, by amateur or professional, the  
nearest to it being J. H. Raby's profes-  
sional record of 13 min. 14 sec., at  
Lille Bridge in 1883.

A Refusal.  
South African sportsmen will learn  
with regret of the refusal of the Amate-  
ur Athletic Association to permit A.  
Shrubbs and J. W. Morton to accept the  
invitation of the South African A. A. to  
compete at the Wanderers' sports at  
Johannesburg on Whit Monday. The  
English governing body would doubtless  
like to further the cause of athletics in  
South Africa, yet cannot be blamed for  
thinking of home athletics. The ab-  
sence of Shrubbs and Morton from the  
A. A. A. championships next July would  
certainly affect the meeting, and on this  
account the English A. A. is justified  
in studying home interests.

### BOXING.

That our neighbors across the channel  
are taking kindly to English boxing  
was again demonstrated on Monday at  
the National Sporting Club. Seven  
amateurs and two professionals repre-  
senting France were pitted against  
English cracks, and though the visitors  
only won one of the bouts, they all made  
a good showing. The victory for France  
was scored by H. Jordan, who knocked  
out Guy Brown, of the Heloise, in two  
rounds. Another visitor in Louis d'Or  
made a capital showing against Diges-  
Stanley for seven rounds, when he hurt  
his thumb and the contest was stopped.

W. J. CLOTHIER.

Whether he will or not is yet to be set-  
tled.  
If these four men are sent the Ameri-  
cans must notify the Englishmen three  
weeks in advance as to which one will  
play each match. If, however, only  
three men are sent the Americans will  
have the option of not naming their  
men until the night before the matches  
are played.  
If Wright is not a member of the  
team and only three men are sent, Ho-  
thier and Ward will probably be the  
doubles team. The Philadelphia expert  
would thus represent America in both  
singles and doubles.

### LAWN TENNIS.

By winning the covered court lawn  
tennis championship, for the fifth time  
in succession, H. L. Doherty equalled the  
record of E. W. Lewis. The latter,  
however, besides winning from 1887 to  
1891, also scored in 1895 and 1896, so  
that Doherty still has a mark to beat.  
H. L. Doherty, with G. W. Hilliard as  
a partner, also took the doubles, and as  
R. P. Doherty and Miss Eastlake-Smith  
secured the mixed doubles, the name  
was much in evidence at the recent  
championship meeting held at Queen's  
Club.

### CYCLING.

Metropolitan cyclists, and Polytechnic  
men in particular, are looking forward  
to Tommy Hall's attempt to set up new  
figures for one hour (paced) at Cann-  
ington Town on Easter Monday.  
Side slip is one of the terrors of  
cyclists and motorists, and that the com-  
petitions (promoted by the Cyclists'  
Touring Club) to test various non-  
slipping devices, will lead to good is to  
be much desired.

A few years ago there would have

## BRAIN FOG IN SPRING

FEELINGS OF DISCOURAGEMENT  
AND DESPONDENCY FROM  
WEAK BLOOD—CURE IN

Dr. Chase's  
Nerve Food

Of all the blood supplied as nourish-  
ment to the human body one-tenth is  
consumed in the brain in the manufac-  
ture of nerve force, the vital power  
which is transmitted through the sym-  
pathetic nerve, the lungs, heart, kid-  
neys, liver, bowels, etc., and which  
supplies the motive power to these or-  
gans.  
In the spring, when the blood is thin  
and watery and the nerve force be-  
comes depleted, ill effects are often  
first felt in the brain.  
The head aches. The mind is dull  
and listless. It is difficult to concen-  
trate the thoughts. Feelings of gloom  
and discouragement come over you.  
Memory and ambition seem to be all  
gone. You begin to look on the dark  
side of things. Your temper is easily  
irritated.  
But enrich and purify the blood by  
the use of Dr. Chase's Nerve Food and  
you will soon find disease of body and  
mind disappearing.  
The tired nerve centres of the brain  
receive new vitality from the new, rich  
blood, new nerve force is sent tingling  
along the delicate nerve fibres and  
every organ of the body responds to  
the new call to health and duty.  
If you would avoid the ills and weak-  
nesses of spring, use Dr. Chase's Nerve  
Food. Fifty cents a box at all dealers,  
or Edmunds, Bates & Co., Toronto.  
Portrait and signature of Dr. A. W.  
Chase on every box.

The Economy of it.

## Armour's Extract of Beef

is an economy as well as a necessity. There's a "thousand and one"  
uses for it in the modern home.

It's the cheapest of all stocks for soups, gravies and sauces. It  
makes the most delicious addition to chafing dish dainties. Hot water  
and 1/4 teaspoonful of Armour's Extract makes the richest bouillon  
and beef tea you ever tasted.

It's so handy to have in case of emergencies for luncheon and din-  
ner—indispensable for the sickroom—always ready for use—instantly  
prepared.

been much furor over the setting up of  
a new one-hour paced cycle record.  
Now, however, with 20 h. p. pacing  
machines, fitted with big canvas wind  
shields, in requisition, the public recog-  
nize the artificial nature of records. On  
this account Giguard's 55 miles 1,530  
yards inside 60 minutes at Paris recently  
passes with little comment.

That Frank Kramer, the American  
champion, will set a big figure in  
Europe this season, he gave further  
proof on Sunday, when he beat Jacque-  
lin in a couple of match races at Paris.

### MOTOR BOAT RACING.

Motor boat racing is evidently an ex-  
citing game, judging by the happenings  
at the Minoro regatta. The 200 h. p.  
Pauhaud-Levasor boat, which won the  
200 kilometres championship race, met  
with an accident in a subsequent event  
and sank. This is hard lines on the  
owner, as the boat set up a new record  
of 4 hours 22 min. 54 sec. in the cham-  
pionship race, gaining over 12 kilo-  
metres on Napier II, (one crank) during  
the first half of the journey. The mis-

Aston Villa and Newcastle United do  
battle for the famous "pot" at the  
Crystal Palace. It may be remarked  
that the attendance is second only to the  
1901 final, when 110,820 spectators saw  
Tottenham Hotspur and Sheffield United  
try conclusions. Six internationals  
figured in Aston Villa's team, though all  
are practically local men. Two English  
and four Scotch internationals were the  
black-and-white forces of the Newcastle  
Club, so it will be seen the opposing  
teams were decidedly classy. The Villa  
men played a long passing game, the  
ball frequently going from wing to wing.  
These tactics paid little better than the  
short, passing game of the Newcastle  
cracks, whose shooting was decidedly  
off. On the play, the Villa were de-  
cidedly the better side and well deserved  
their win, 2 goals to 0, which makes the  
fourth time the cup has been won by  
the club's representatives.

Scottish Cup Final.  
The non-favorites won the replayed  
Scottish Cup final on Saturday. This  
was the third time the cup has been won  
by Third Lanark and later Johnson  
and Wilson again beat the Rangers' cus-  
todian before Smith got through for  
Glasgow Rangers. Third Lanark have  
only won the cup once before, that being  
sixteen years ago, when the Volunteers  
disposed of Celtic.

The Leagues.  
Newcastle United are now bent on  
winning the league championship, which  
promises to be a keen struggle to the  
very end of the season. Almost as  
much interest centres in the efforts of  
the clubs at the bottom of the table to  
avoid the Second Division. The ques-  
tion of the leadership in the Second  
Division may be settled by goal average,  
so evenly are Liverpool, Bolton and Man-  
chester City matched. Southampton's  
chances of again winning the Southern  
League championship were extinguished  
by Millwall beating the "Saints" on their  
own ground last Saturday. Bristol Ro-  
vers seized their opportunity, and by  
drawing at Reading, headed that club  
and Southampton by three clear points.  
Tottenham failed against Manchester  
City, while Manchester United were  
beaten at Chesterfield, their champion-  
ship prospects thereby being much less-  
ened.

### IN GENERAL.

H. W. Stevenson made splendid  
breaks of 557 and 690 at billiards this  
week. He is meeting C. Dawson in a  
match of 18,000 up at Glasgow, and  
unless a big change comes over the  
scene, should run out a winner tomor-  
row night.

The Casuals Football Club team has  
had a highly successful tour on the  
Continent, where the Soccer game is  
rapidly coming to the front.  
W. G. Grace will captain a team of  
amateurs which is to re-open the cricket  
season against Surrey at the famous  
Kennington oval on Easter Monday.

Owing to the Scrubton sports, Surrey  
had to take the field for the lacrosse  
match against Kent without several of  
the regular players. In consequence it  
proved a one-sided game, Kent winning  
by 12 goals to 20. The Essex and  
Middlesex match was much more evenly  
contested, the latter winning by 7 goals  
to 4.

C. V. Fox, of the Guards, who won  
the Diamond Sculls in 1901, has re-  
turned from presence on the West Coast  
of Africa, and will probably compete at  
this year's Hopley regatta. F. S. Kelly,  
the famous Oxford and Australian  
sculler, who won in 1902-03, may also  
compete, so that the Diamond Sculls  
promise well this season.  
Shrubbs' 25 min. 4 3/5 sec. for run-  
ning 5 miles at Sydney on Wednesday,  
is a mark which Australian distance  
runners will find difficult in wiping out,  
though he may himself cut the record  
before he leaves for home.

### RACQUETS.

Thanks to Messrs. E. W. Bury and  
R. P. Keigwin, this year's inter-city  
racquets (doubles) went to Cambridge  
by 4 games to 2. The former also beat  
H. C. N. Bruce in the singles—3  
games to 2.

### THE TURF.

What was either a silly hoax or an  
attempt to influence the market was  
perpetrated a few days ago. Late in  
the evening a telegram was received by  
Messrs. Weatherly, which read:  
"Scratch Dean Swift for the City and  
Suburban, Joel." Those who have  
backed the present favorite for the  
Epsom race were relieved when Mr.  
Joel disclaimed all knowledge of the  
telegram, which he designated a forgery.  
In the meantime Dean Swift retains  
place of place in the betting. Genera  
Cronje has been supported, and nam-  
ing the winner under notice may be his  
journey, while the writer fancies Grey  
Green will go close.

## DAILY MAIL'S COMMISSIONER

Noted British Newsmen Visits  
Victoria in Connection With  
Journalistic Plan.

Among yesterday's arrivals from the mainland, and now a guest at the Hotel Victoria, is Mr. Thomas W. Williams, representative of the "Overseas edition" of the London Daily Mail. The proprietor of the Mail, Sir Alfred Harmsworth, has attracted considerable attention throughout the world by his newspaper policy, and now he has decided to extend his field of operations until its boundaries include the Empire. The edition he is now contemplating, and the first number of which will be issued this week, will be practically an imperial newspaper. Last summer Sir Alfred was in Canada, and came as far west as Winnipeg to size up conditions, and as a result will issue an edition of the Mail which will have special application to Canada. All news having reference to Canada will be published, and questions which come before the imperial parliament affecting Canadian interests. In addition, the idea of the "Overseas edition" of giving "home news" to Britons in the Colonies will be carried out. It is the intention of the enterprising publisher to have a separate edition for each of the colonies along the same lines, and each will have distinct features.

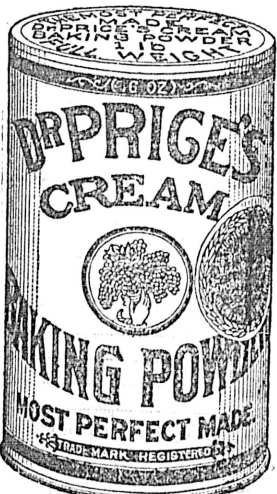

To set the ball rolling in Canada he has sent out Mr. Williams as a special commissioner. Mr. Williams is renowned for his newspaper exploits, and was the man who secured the famous interview with Kitchener of Khartoum. His extensive travel through this country, he having been in Victoria in 1899, when he was in the Klondike rush, the West Indies, South Africa, India and Australia, have fitted him to readily grasp the situation in the Dominion, so far as the possibility for newspaper enterprise is concerned. He was accompanied to Montreal by Mr. Geo. W. White, the publisher of Sir Alfred's three large papers in London.

"I have been sent to Canada," Mr. Williams stated, "to make the 'Overseas Mail' more widely known, and to introduce it into places which it has not yet reached. My intention of touring Canada is to study the conditions here so that the journal may be put into every home, where it will be received each week as a message from the heart of the Empire.

"This may look like a purely business scheme, but Sir Alfred Harmsworth does not intend it to be such. In fact, if you consider the cost of the paper to a person living in this country you can easily understand there is very little to be made out of it. No, he is carrying out this project for the purposes of empire. When he was in Canada last summer he was so enthused with the future of this big colony that he resolved to do all he could to link it closer with the mother country, and he wants to accomplish this end by means of keeping Englishmen, particularly in mind of their home land. He thinks the journal he has established, and which has a large circulation here, should be so widely distributed that it will keep alive the loyalty to the British Isles.

"While in Ottawa, I saw Earl Grey and the Premier, Sir Wilfrid Laurier, and the Hon. Frank Oliver, and they were quite enthusiastic regarding the idea. However, I have met people throughout the West who have all agreed that it will be a good thing."

## New Steamers For 'Frisko Route

Pacific Coast S. S. Co. to Build  
Two Sixteen Knot Vessels  
for Next Season.

Steamer City of Topoka Completes Repairs—Queen City Returns.

About two years ago the Pacific Coast Steamship Co. announced its determination to build two new passenger steamers for the San Francisco route, but nothing was done. Now the announcement is again made. Superintendent Wallace, who was in Victoria this week to overlook the repairs and alterations being made at Esquimalt to the steamer City of Topoka, says that a decision will be made within two weeks with regard to the construction of the two liners for this service. The new steamers will be in the neighborhood of \$1,000,000. They will be about four hundred feet long and will have a speed of not less than sixteen knots. Both will be fitted with the latest modern armaments and appliances, and will be in full keeping with the present-day requirements of passenger travel at sea.

It is understood that the two steamers will be built at some point on the Pacific Coast, although no decision has been reached in this regard. The company has been for some time considering plans for the steamers, but no decision could be reached. It is now intended to hurry arrangements so that the new steamers can be constructed and placed in commission early next summer. When the steamers are placed in service it is expected that a faster service will be given between Victoria and San Francisco. With a speed of 16 knots the steamers would be able to make the passage in 47 hours. The fastest time that any of the vessels now on the route has made, is 48 hours, the record achieved by the steamer City of Puebla.

Steamer City of Topoka has completed repairs at Esquimalt involving an expenditure of over \$50,000, and will leave for Seattle on Wednesday. She has been altered considerably, her upper works having been practically rebuilt. New saloons have been added, and the vessel has been considerably improved.

## NAVIGATION OPENS.

Season's Travel on the Upper Yukon Waterway Has Been Inaugurated.

The season of navigation on the upper Yukon has commenced. The first steamer to leave Lake LeBarge for Dawson was the Prospector. This vessel left the upper Yukon point on Wednesday. The river is very low, but the most favorable about once a day at White Horse. Steamer crews are standing by and the steamers of the White Pass and Yukon route are being made ready for service. The season of navigation will open in earnest within the next few days, the large amount of freight has already been received at White Horse.

## THE GARONNE DAMAGED.

Heavy Gale in the China Sea Gives Refugee Carrier a Tossing About.

Advice has been received from Shanghai that the steamer Garonne, Capt. H. J. Tait, which was bound for the Chinese coast, has been considerably damaged about the deck and lost two boats in a heavy gale encountered in the China sea on her way from Yokohama to Shanghai. The Garonne is under charter to the Chinese government for the purpose of conveying Russian refugees from Shanghai to Odessa. She was fitted at Victoria for the voyage, her bulkheads having been removed to make room for passenger necessities. The vessel took a cargo of foodstuffs from the Sound for Kobe on her outward voyage.

Tug Albion returned last night from San Juan with a boom of logs for Lemmon & Co. of this city. The Albion took a load of machinery to San Juan on her upbound trip for a new shingle mill to be erected on the San Juan river.

Tug Albion will leave this morning for Vancouver with the large Alexander, now lying at the ocean dock, and a cargo of cement from the Vancouver Portland Cement Co.'s works on Saanich arm.

The salmon trap at Sooke, operated by Messrs. J. H. Todd & Sons and Wm. Muskie was lifted yesterday with little result, as salmon are not running yet.

Steamer Princess Victoria resumed service on the Victoria-Vancouver route this morning.

## QUEEN CITY'S RETURN.

Brings One of Skulls Taken From Cave Which Held Many Skeletons.

Steamer Queen City, Capt. Townsend, returned from Queen City and way ports on the Vancouver Island coast yesterday, with about a dozen passengers and a small freight. Capt. Townsend brought him one of the skulls taken from the cave at Quatsino, at the mouth of the Skeena. This skull will probably be examined by experts with a view to determining, if possible, if it is that of a white man or Indian. Three skulls were taken from the cave, in which thirty-five skeletons were found. One of the skulls, which is in possession of a settler at Quatsino, has a cleft in it which would seem to indicate that it had been cloven by an axe.

An investigation of the cave found by the prospectors has shown that it is 150 feet deep, and in it lay 35 skeletons, some of which had bones crushed indicating that the men whose bones they were had been down to death with violence. The settlers resident in the vicinity were mostly of the belief that the skeletons were not those of Indians, and the preponderance of opinion was that the remains were those of shipwrecked crew. Indians questioned with regard to the fair denied all knowledge of any crew having been down to death, and denied knowledge of the existence of the cave.

Among the passengers who arrived by the Queen City was Mr. J. J. Jones, of the lumber company doing business at San Juan. He came to Victoria to receive medical attendance as a result of an accident. He was struck by a broken wire and received painful injuries. Mr. Anderson, who has some iron property on Barkley sound, was another passenger.

The steamer brought to port the coast catch of the sealing schooner Carlotto G. Cox, which had up into Clayoquot to land her skins before going to the Copper Islands. The Cox took 270 skins of the coast, she and the Umbria having the highest catches.

## MARINE NOTES.

Steamer Iauri of the Kosmos line is now on her way from San Francisco to Vancouver to land 700 tons of sugar for the B. C. Sugar Refinery.

Steamer Beira, a British steamer of 2751 tons, passed up to Seattle yesterday in ballast from Moji, Japan, under charter to F. Waterhouse and Dodwell & Co., to load flour for Japan.

Norwegian ship Lancing, 12 days from San Francisco, was towed to the Sound yesterday to load lumber for Fremantle. British ship St. David, loaded with coal from Conox for Dutch Harbor, was towed to sea yesterday by the tug Lorne, after a crew was placed on board at Esquimalt.

Steamer City of Puebla is due from San Francisco. Steamer Santa Rosa will sail tonight, taking the place of the Senator.

## School Board And the Council

A Difference of Opinion Respecting Appropriations for the Year.

Trustees Take Position That Council Cannot Reduce School Estimates.

At Thursday evening's meeting of the civic board of health, Mayor Barnard, taking advantage of the presence of a delegation from the board of school trustees, made this announcement: "The council in preparing the estimates for the year had determined to cut down the asked-for appropriations for ordinary expenditure by about \$35,000. The Mayor gave no reason for this, except as to the matter of the school board, he was of the opinion that the board would lodge a strong protest against any such action on the part of the council.

With the view of obtaining some further information on the subject, a Council reporter yesterday called upon F. H. Eaton, secretary of the school board. Mr. Eaton said he had as yet received no official communication of the council's suggested action in reducing the appropriations asked for ordinary expenditure; nor did he know the reasons which would actuate the council in taking such a step.

Asked if the School Act did not stipulate that the council had jurisdiction over the school board's appropriations for ordinary expenditure, Secretary Eaton referred the reporter to clauses 37 and 38 in the act, either of which it would seem the council must observe in its financial relations with the board. Clause 38 reads as follows:

"The city treasurer shall, upon the receipt of any moneys from time to time paid into his hands on account of the rates and taxes, set apart and keep to a separate account, to be called 'The Board of School Trustees' Account,' so much and such proportion of the moneys as the amount ordered to be assessed and levied for school purposes in such city, and pay over such moneys so set apart to the board, as and when mentioned in section 37 hereof, and shall, whenever requested by the said board, the state of such account; and such moneys so set apart, or that ought to be set apart, shall not be applied to any other purpose, whatsoever, by the city treasurer. It shall not be lawful for the board of school trustees to incur any liability beyond the amount shown by such account to be at their disposal."

In explanation of the above, it is to be mentioned that the council is prohibited from levying a greater rate than 2 mills for school purposes. Clause 38 would seem to limit school expenditure to the proceeds of this special rate—about \$25,000, whereas the actual expenditure is between \$60,000 and \$70,000. Clause 38 has always been ignored, business being conducted in conformity with clause 37, which reads as follows:

"The board of trustees shall, on or before the first day of February, in each year, cause to be prepared and laid before the city council a detailed estimate of the sums required by the board for the current year's ordinary expenses of maintaining the schools as they exist at the time of the making of such estimate, which sums shall be paid over from time to time to the city treasurer, and the city treasurer, by the city treasurer, to the several persons or corporations for whose use such moneys are payable.

It is plain that to follow the provisions of clause 38 and limit the expenditure to \$25,000 would be absurd, hence clause 37 has always been followed without exception, and it will be seen that it contains no stipulation that a special school fund shall be created.

It would appear that the council under the School Act is given no discretion in respect of the school fund, and that it must be expended. The city treasurer does not observe clause 38, the 2 mills are not set aside for school purposes, and thus it is impossible that the council is resuscitating clause 38 in determining to reduce the expenditure of the school board.

As to what action the board of trustees will take in respect to opposing the decision of the council in this matter, it will probably be found that they will take their stand on the provisions of clause 37. Possibly the council may take the position that the school board's estimates have been enlarged since presentation in February, as the board had asked for a contingency sum to cover the salaries of two additional teachers.

However, whatever the position taken by the council, the trustees do not anticipate any serious clash between the two boards, during the regime of ex-Mayor Redfern a similar year's ordinary expenses of maintaining the schools were met by the council, and it failed, the trustees ignoring the decision of the council to reduce the appropriations and proceeding in the ordinary way to incur the necessary liabilities for the proper maintenance of the schools. The trustees thus threw upon the council the responsibility of interfering with the operations of the school system; and this was a step which the council of that day did not care to take, the latter body

## HAS OPTION ON ALASKA S.S. STOCK

Interesting Story From Seattle Respecting Alleged C. P. R. Deal.

Rumors have been afloat in the city for some time past to the effect that the C. P. R. had acquired the Victoria end of the Alaska Steamship Company's business, including the steamer Whatcom, color being given to the story from the circumstance that the two companies had made an arrangement whereby the Sound traffic was shared, the steamer Whatcom continuing on the route alone and arriving at and departing from the C. P. R. docks. Inquiries made locally failed to confirm the statement that the Whatcom had passed into the hands of the C. P. R., but the following despatch from Seattle, dated May 4, bears out the fact that the popular impression respecting the merging of interests for some time:

"An option on 51 per cent. of the stock of the Alaska Steamship Company, of this city, is reported to have been given to a Canadian Pacific Railway Company, and the Canadians have until June 1, 1906, to take it up. The purchase of this stock would give the C. P. R. a controlling interest in the Alaska Steamship Company and do away with all opposition in the northern trade, except that of the independent steamers, that would then be gone after by means of a rate war. The C. P. R. can close the deal for the Alaska line at any time. It is watching the earnings and it is with the big company entirely a question of whether it will pay best to buy the control of the American line or to put it out of business by cutting rates. It is reported that even now an agreement is in force by which the Alaska Steamship boats only call at Vancouver by invitation of the C. P. R., and there is no opposition from British Columbia ports to the north other than that of the two companies already referred to. This move on the part of the C. P. R. was foreshadowed some little time ago, when the Alaska Steamship Company undertook to withdraw from Victoria and the C. P. R. offices there began to sell the Alaska Steamship Company's tickets. The present agreement by which the earnings of the two companies already referred to are run are divided and in addition that traffic done away with is another corroboration of the existence of the reported option."

## PALE FACED AND ANXIOUS

The Countenance Indicates the Body's Awful Struggle for Health.

Impossible to work or think clearly when there is no reserve of vigor, no surplus of energy in the blood, no supply of nerve energy.

The life of the half sick man is pitiful—in fact, almost criminal when bounding strength is so quickly derived from Ferrozene.

The nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated. Muscle and fat are added, healthy color is restored and the blood fairly tingles with new-found life.

Proved successful in debility and weakness by the people of many nations, Ferrozene stands unrivalled as the greatest of all uplifting medicines. Read the evidence of Mr. John Carter of 494 King street west, Toronto, who says:

"After a severe attack of Grippe my health was almost shattered. I suffered constantly from nervousness and

## CHINESE HUMOR.

Philadelphian Post.  
Senator Clay of Georgia had occasion recently to visit San Antonio, Texas, where there is a considerable Chinese colony. In one of the poorer sections of the city he was witness to an incident which has impressed him with the belief that Celestials have a fully developed sense of humor. A tramp wandered up to a weather-beaten shop and knocked gently. Immaculate in white sack blouse and clean apron, the Chinese cook opened the portal and gazed with disfavor upon the soiled specimen of humanity before him.

"What's that?"  
"Say, 'Chink, give us a bite of food.'"  
"You hungry?"  
"Yes, I sure am, 'Chink.'"  
"You like fish?"  
"You bet—anything!"  
"You likum boiled—fried—baked?"  
"Yes, yes; any way; no matter." "All right, you come back Friday."
